Dear Occupier

### **Acton to Wood Lane cycling and walking improvements: further phases of works**

I am writing with details of upcoming phases of works on our Acton to Wood Lane cycling and walking improvement scheme. The works listed below will take us through to the completion of the project next spring. When complete the scheme will be renamed Cycleway 34 and form part of London's expanding cycling network.

#### **What we will do**

To minimise the overall impact of construction we will continue to work in carefully coordinated phases. Phases one, two and three are complete.

- **Phase four:** Underway now. Runs to 26 November. We will improve the footway between Sundew Avenue and Hilary Road
- **Phase five:** 25 November 2019 to 31 January 2020. We will improve the footway between Hilary Road and Glendun Road
- **Phases six and seven:** 28 October 2019 to 15 February 2020. We will improve the footway between St Dunstan's Avenue and Kathleen Avenue
- **Phase eight:** Underway now. Runs to 31 October 2019. We will improve the footway between Perryn Road and St Dunstan's Avenue
- **Phase nine:** 11 November 2019 to 7 December 2019. We will improve the footway between Gibbon Road and Perryn Road
- **Phase 10:** February 2020. We will work overnight to resurface the westbound A40 Westway. Specific dates to be confirmed

We will make every effort to finish the works on time, although poor weather conditions may mean we need to reschedule at short notice.

We plan to work 07:30 to 18:00 on weekdays, and 08:00 to 13:00 on Saturdays for all of these phases. The only exception to this will be in February 2020 when we plan to resurface the A40 at night to minimise disruption to daytime traffic.

These working hours have been agreed with Ealing and Hammersmith Councils.
